

WORKSHOP	Business English: Success at a Job Interview
Staff	Timothy Hellstrom Bilingual in English and Swedish. Bachelor of Philosophy from Georgia State University. World traveler, lived in five and visited twenty seven nations. Previous experience working in the job recruiting industry, communicating with major international firms in the Information Technology and Job Consultancy sectors.
Language	English
Public	This workshop is dedicated toward providing a high quality and detailed learning experience with regard to being successful at a job interview. The course is unique because it combines first-hand knowledge of job consulting with proven linguistic tools to yield a stronger grasp of the English language and the job world.
Level	Minimum Level Required: A2
Fees	170 Euros
Duration	12 hours (9 hours virtual classroom + 3 hours videoconference)
Study Mode	Online with tutorials and 121Conversation sessions
Objectives	<p>The primary goal of this workshop is to acquaint the student with speaking and writing requirements for successful job interview scenarios in an English speaking environment.</p> <p>The course material is designed to inform the student how to approach speaking and writing situations by detailing the entire interview process, curriculum vitae creation, the expectations of the interviewer, and interviewing tactics.</p> <p>This workshop aims to inform the student about the common terms in interview scenarios, sentence structuring in a candidate's curriculum vitae and how to phrase verbs and nouns to one's advantage.</p>
Activities	<ul style="list-style-type: none"> ● Listening to recorded interviews with real job recruiting professionals ● Detailed analysis of language and structure in both successful curriculum vitae ● Articles focused on the modern job market ● Three reading comprehension exercises ● One oral exercise (audio submission) ● Six video conferences (30 min each) ● Create a professional CV tutorial
Comments	The content and activities are oriented to provide the student with real-world experiences and therefore much of what the student will be seeing, reading, hearing and doing will be applicable in actual job interview scenarios. For example, the CV creation project is designed to have the student draft a professional CV through online research and peer review by the tutor. Also, many of the insights and multimedia will be collected from people who have experience working in the job recruiting business.
